Q1	Question: RFI - Gannon Parking Ramp Improvements I see all the work listed under the pricing excel spreadsheet for the bid. For items such as the "Deck Sealer" that is listed on the drawings, are those to be included in the proposal or only the repair items specifically highlighted in the RFP and Bid Form? Answer: Please complete the base bid based on the current repairs requested. I have added deck sealer pricing per square foot to the pricing spreadsheet so the team has this information available, as we anticipate a longer-term maintenance contract.
