

SECTION 00 43 36.16

PROPOSED SUBCONTRACTORS – STRUCTURAL STEEL AND REBAR INSTALLATION

Each bidder is advised of the requirements of Washington Law, RCW 39.30.060:

Every invitation to bid on a prime contract that is expected to cost one million dollars or more for the construction, alteration, or repair of any public building or public work of the state or a state agency or municipality as defined under RCW 39.04.010 shall require each prime contract bidder to submit as part of the bid, or within 48 hours after the published bid submittal time, the names of the subcontractors with whom the bidder, if awarded the contract, will subcontract for the performance of the work of structural steel installation and rebar installation or to name itself for the work.

The bidder shall not list more than one subcontractor for each category of work identified, unless subcontractors vary with bid alternates, in which case the bidder must indicate which subcontractor will be used for which alternate. Failure of the bidder to submit as part of the bid the names of such subcontractors or to name itself to perform such work or the naming of two or more subcontractors to perform the same work shall render the bidder's bid **nonresponsive** and, therefore, void.

Please list your subcontractors appropriately. A subcontractor must be listed unless "N/A" has been noted by the Owner.

1. Structural Steel Installation

This work includes construction of a temporary bulkhead and construction of walkway grating as shown on Structural Drawing Sheets. The installation of supports for HVAC, plumbing, or electrical systems is not a part of this work.

Subcontractor Name: _____

2. Rebar Installation – N/A
