11. BID EVALUATION

a. Each Bid timely received and in the County's hands at the time set forth for the Bid opening shall constitute an offer to perform the Agreement on the terms and conditions thereof, in strict accordance with the Agreement documents, and all other requirements, all for the Bid total. For good cause and valuable consideration, the sufficiency of which is acknowledged by submittal of a Bid, each Bidder promises and agrees that its Bid shall be irrevocable for a period of **sixty calendar days** after the Bid opening and will not be withdrawn or modified during that time. The County may accept any Bid by giving the Bidder Written Notice of acceptance during that time. If necessary, the period of time specified may be extended by written agreement between the County and the Bidder or Bidders concerned.

b. After the Bids have been opened and before any award is made, the County will evaluate the Bid process, the Bid total, the supplements to the Bid form, Bidder's experience, proposed Subcontractors and equipment manufacturers and other data relating to Bidders' responsibility and qualifications to perform the Agreement satisfactorily.

c. All extension of the unit prices shown, and the subsequent addition of extended amounts may be verified by the County. In the event of a discrepancy between the unit price bid and the extension, the unit price will be deemed intended by the Bidder and the extension shall be adjusted. Where only a single responsible and responsive Bid is received, the County may in its sole discretion, elect to conduct a price or cost analysis of the Bid. Such Bidder shall cooperate with such analysis and provide such supplemental information as may be required. The determination whether to enter into an Agreement with such sole Bidder shall be solely within the County's discretion and not dependent upon performance of a price or cost analysis.

f. Bids will be evaluated on the basis of determining the lowest Bid total of a Bidder, not including alternates, whose Bid is responsive to the Invitation to Bid and who is determined to be technically, financially and otherwise responsible to perform the Agreement satisfactorily, and to meet all other requirements of the Bidding Documents relating thereto. Any Bid may be rejected if it is determined by the County to be non-responsive, provided, however, that the Commission reserves the right to waive any irregularities or technicalities which it determines, within its sole discretion, to be minor in nature and in the interest of the public. Furthermore, any Bid may be rejected if it is determined by the County, in its sole discretion, that the Bidder is not capable of performing the Agreement satisfactorily based upon review of its experience and technical and financial capabilities, or the

failure of such bidder to provide information requested relating to such determination. Additionally, the County reserves the right to disqualify Bids, before and after the bid opening, upon evidence of collusion with intent to defraud or other illegal practices upon the part of any Bidder(s).

g. The County intends to award the Agreement at the earliest practicable date to the lowest responsive, responsible Bidder(s), provided that the Bid is within the funds available for the project. - 3.1.1. Monitoring Approach/Methods
-

The fecal coliform and E-coli bacteria samples shall be collected independent of the water quality trend stations. Fecal coliform and E-coli bacteria sampling results shall be reported as geometric means. Sampling efforts should focus on the waters identified as impaired, per the current State of Georgia 303(b)/305(d) listed streams. The intent of the sampling is to determine patterns of high fecal coliform contamination, the elimination of obvious sources of potential contamination, such as wastewater discharge, bypass, and sanitary sewer overflow (SSO). Bacteria sampling involves collection of one set of samples during the summer and one set of samples during the winter season of the year, in which each set includes four samples collected over a 30-day period at intervals not less than 24 hours. The wet weather grab samples will be utilized to determine if fecal coliform contribution is from wet weather events. E-coli shall be monitored in the same manner outlined to fecal coliform in an attempt to distinguish between human and animal sources. The Contractor shall evaluate, interpret sampling results, and make recommendations to the County as to where and what is the source of contamination in the stream.

3.1.2. Grab samples shall be collected directly into sterile bacteriological containers supplied by the Contractor. Sample containers shall be handled to avoid introducing contamination during sample collections. The membrane filtration method under 40 CFR 136 guidelines shall follow the collection of fecal coliform and e-coli sampling to be approved by the County.

3.1.3. The Contractor shall complete a chain of custody report. Grab samples shall be collected from each sampling location within the winter (November - April) and summer (May - October) seasons. The Contractor shall collect four (4) samples in order to collect a geometric mean in the summer season, four (4) samples in order to collect a geometric mean in the winter season, two (2) wet weather samples in the summer, and two (2) wet weather samples in the winter season.

3.2. Chemical Monitoring The Contractor shall perform sampling at the 14 (fourteen) sites listed in 5.1. A total of 56 grab sample shall be collected annually. The samples shall be analyzed for the following parameters:

- Total Suspended Solids (TSS)
- Phosphorus (Total)
- Phosphorus (Ortho)
- Total Kjeldahl Nitrogen (TKN)
- Ammonia
- Nitrite/Nitrate
- pH
- Dissolved Oxygen
- Conductivity
- Turbidity
- Flow and Temperature
- 5-Day Biochemical Oxygen Demand (BOD5)
- Chemical Oxygen Demand (COD)
- Cadmium, Copper, Lead, and Zinc
- Hardness

Four (4) samples per year shall be collected. (A minimum of four (4) events annually and/or one per quarter as approved by the County).

The Contractor shall deliver representative samples collected for analysis within the required holding time for the applicable parameter, (i.e., fecal coliform (6) hours, this includes the collection, delivery, and analysis time by the laboratory) to laboratory

3.3. The contractor shall provide labor required to collect water quality samples from sites and locations as directed and approved by the County. This Item is intended to be all inclusive and includes, but is not limited to, transportation Of equipment to the site, set up, sample collection, breakdown, disassembly, removal Of equipment and data analysis.

.4. Basis of Payment: The unit price for grab sampling shall include all work associated with the samples collected at the sites identified in Task 5. Grab samples for fecal coliform and E-coli analysis shall be paid based upon each set Of four samples collected for which a geometric mean is calculated for each set, per the State of Georgia (EPD) guidelines.

Biological Monitoring

Biological components of a water body (i.e., fish and macroinvertebrates) function as monitors of environmental quality by responding to episodic and cumulative pollution, habitat degradation, and environmental stressors. An evaluation of biotic integrity is required at up to nine (9) monitoring locations, bi-annually aslor when approved by the County. Biological monitoring shall be conducted at the following locations: (1) downstream end of White Oak, (2) downstream at Camp Creek Wastewater discharge point, (3) downstream at Bear Little wastewater discharge point at Campbellton Redwine Road, (4) downstream point at Johns Creek, (5) Little River at Arnold Mill Road, (6) downstream end Of pea Creek, and (7) Whitewater Creek near Fayette County line and any other sites identified as applicable for this task. This effort is designed to satisfy the biological requirements of the District WRMP and the County's WPP.

Biological sampling is a specialized field. Any subcontractor utilized for this work shall be submitted to Fulton County for review and approval prior to any sampling.

Biological monitoring will be conducted under methods outlined in the Georgia Macroinvertebrate Bioassessment Standard Operating Procedures (SOP), Metric Spreadsheets and other supporting documents as published by EPD. The primary components Of the biological monitoring include physical habitat assessments and benthic macroinvertebrate and fish sampling. prior to biological surveys, water quality will be assessed via insitu measurements Of the following parameters: water temperature, dissolved oxygen (DO), ph, turbidity, and conductivity. NO sampling or evaluation of reference site(s) will be required for this monitoring because reference data will be provided by EPD

4.1. Habitat Assessment

Habitat assessments will be conducted at monitoring sites in accordance with the Macroinvertebrate Biological Assessment of Wadeable Streams in Georgia, Standard Operating procedures (March 2007) as published by the Georgia Department of Natural Resources. The worksheet requires visual evaluation of physical habitat parameters, including instream cover, substrate, channel morphology and flow, bank stability and vegetation, and riparian zone condition. The DNR worksheet has ten Habitat Parameters (HPs). Assessing habitat allows the quality Of the structure of the surrounding habitat that influences water quality and condition of

the aquatic biota to be evaluated and may aid in identifying non-water quality affiliated factors of biological impairment, if present.

The habitat score at each monitoring site will be compared with the habitat score of a reference site (site data to be provided by EPD) to classify each site on the basis of its similarity to expected conditions (i.e., conditions at the reference site) and its apparent potential to support a measure of biotic integrity. Percent Of comparability (ratio) Of each monitoring station to the reference fall into one of four assessment categories: "comparable to reference", "similar to reference," partially similar to reference," or "dissimilar to reference."

In addition to the habitat assessment forms, DNR's Physical Characterization/Water Quality Field Sheets and Impairment Assessment Sheets will be completed at each site.

4.2. Macroinvertebrate Community Assessment

The macroinvertebrate community will be assessed under the Macroinvertebrate Biological Assessment of Wadeable Streams in Georgia, Standard Operating procedures (March 2007) as published by the Georgia Department Of Natural Resources. Standardized semi-quantitative sampling for macroinvertebrates will be conducted at each site for a variety Of habitat types, including riffles, undercut banks/roots, woody debris, sand, and leaf packs/coarse particulate organic matter (CPOM). Sampling generally will consist of collecting six meters of riffle habitat (split between faster and slower currents), five meters of woody debris, three meters Of undercut banks/roots, and three meters in the sandy areas. Each sample will consist Of a kick, jab, or sweep with the dip net for a linear distance Of one meter, except the woody debris samples, in which a brush will be used to brush or scrape a linear meter of the wooded surface. CPOM samples (about two liters) will be collected by hand throughout each study reach. Additionally, a 10-minute visual search and sampling Of all habitat types will be conducted.

"D" frame dip nets with a 500-micron mesh will be used for all sampling. All habitat type samples will be composited into a single container at each site for preservation and transport to the laboratory. Analysis and data evaluation will be conducted in the laboratory. Macroinvertebrate sub-sampling shall be performed as specified in protocol. Identification and analyses should be conducted on a sub-sample of 200 ($\pm 20\%$) organisms. Macroinvertebrate specimens should be identified to genus level, or if unattainable, to the lowest practicable taxon using standard taxonomic keys.

The study area lies within the Piedmont and would follow the Ecological Condition Worksheet for that ecoregion

4.3. Fish Community Assessment

The fish community will be assessed using part I: Standard Operating Procedures for Conducting Biomonitoring on Fish Communities in Wadeable Streams in Georgia (June 1, 2005) as published by the Georgia Department of Natural Resources Wildlife Resources Division, Fisheries Management Section. Fish sampling will be conducted at all study sites, but not at the reference site. Sampling will be conducted April through October.

The surveys for fish will be conducted using backpack electrofishers or a boat (dependent on stream size). Collected fish will be identified, enumerated, and released alive. Fish should be

identified to species level. Specimens that are unable to be definitively identified in the field will be preserved in 10% formalin solution and taken to the laboratory for identification. Twelve scoring metrics are used for assessing biotic integrity, assigning a value of 1, 3, or 5 for each metric and summing these values for a total EI score at each site. Additionally, a correction factor will be included for sites with diseased/anomalous individuals. Scoring is based on criteria relative to reference site data and from fixed criteria for a particular ecoregion and also is dependent on stream drainage area. Scoring for metrics number 1-6 and number 11-12 is sensitive to the drainage areas of the streams at the monitoring locations. The DNR protocol is based on five integrity or quality classes. This version Of the IBI is a modification of the EPA Rapid Bioassessment protocol V (Plafkin et al., 1989). The EPA and DNR versions Of the IBI are based on the original premise of the IBI developed by Karr (1981).

In addition to the IBI, state protocol utilizes a modified Index of Well-Being (lwb) to assess the fish community. The IBI is the primary tool used for evaluating the fish community, and the lwb is used as a secondary assessment to confirm the results of the IBI. The lwb is a composite index which combines two parameters of fish diversity and fish abundance into a single value reflective of these two components. The four parameters which comprise the lwb are as follows:

- 1) Relative fish density
- 2) Relative fish biomass
- 3) Shannon-Wlener Index of Diversity based on numbers of fish
- 4) Shannon-Weiner Index Of Diversity based on biomass of fish

The lwb is calculated as follows:

$$lwb = 0.5 \ln(\text{No.}/200m) + 0.5 \ln(\text{Kg}/200m) + H(\text{No.}) + H(\text{Kg})$$

where:

No./200m number Of individuals (minus tolerants, hybrids, and introduced species) per 200 meters of electrofishing

Kg./200m = total biomass (minus tolerants, hybrids, and introduced species) per 200 meters of electrofishing

H(No.) = Shannon-Wlener Index of Diversity based on numbers Of fish

H(Kg) = Shannon-Wiener Index Of Diversity based on biomass Of fish

4.4. Biological Monitoring Report

SECTION 8 SAMPLE CONTRACT

8.1 FULTON COUNTY CONTRACTUAL REQUIREMENTS – BACKGROUND

As a government entity, Fulton County Government (“County”) is governed by a number of statutes, rules, policies and requirements that may restrict or prevent the County from entering into certain types of contracts or certain contractual terms and conditions, some of these requirements are non-negotiable.

8.2 CONTRACT TERMS AND CONDITIONS

The County intends to execute a contract substantially similar to the Sample Contract provided. The Contractor must comply with the terms and conditions set forth in the Sample Contract. No changes to the terms and conditions will be permitted without prior written approval from the County’s Purchasing Agent. The Sample Contract is attached for your review. Proposed terms and conditions that conflict with those contained in the attached Sample Contract or that diminish the County’s rights under the contract shall be considered null and void and will not be considered.

8.3 CONTRACTUAL TERMS AND CONDITIONS – NO MATERIAL CHANGES

8.3.1 Indemnification and Insurance

The Finance Department, Risk Management Division is responsible for establishing guidelines for indemnification and insurance provisions in County contracts. The indemnification and insurance requirements contained in the attached contract are pursuant to those guidelines. The County shall not be deemed to have accepted any alteration of these provisions without prior written approval to the Offeror from the County.

Indemnification

Indemnification is a contractual clause by which one party to a contract asks the other party to defend it against any claims or third parties who might be injured as a result of something that occurs while the parties are performing their duties and obligations under the contract. In accordance with Georgia law, the County cannot enter into agreements indemnifying Contractors/Consultants, or any other entity, against third party claims. Be advised that the County will not agree to clauses to indemnify a Contractor/Consultant “to the extent permitted by law.”

Insurance

Upon receipt of the Notice of Intent to Award, the successful offeror must obtain the required insurance coverage and provide the County with proof of coverage prior to contract approval. The coverage must be satisfactory to the County as outlined in Section 4, Insurance and Risk Management provisions and Indemnification and Hold Harmless provisions of this ITB.

8.3.2 Limitation of Liability

The County is prohibited from limiting direct damages, including those resulting from property damage or personal injury. Any request by a Bidder to the County to limit direct damages will not be considered.

8.3.3 Waivers of Jurisdiction and Venue

The County will not consider requests or contractually agree to change the jurisdiction or be subject to the laws of another state or federal courts.

8.3.4 Alternative Dispute Resolution/Mediation

The County will not consider requests or contractually agree to include alternative dispute methods.

8.3.5 Confidentiality

Fulton County Government and all of its agencies are subject to the State of Georgia public record laws. The County cannot agree to contractual terms that attempt to prevent it from having to disclose records that are declared public records under applicable statutes.

8.4 EXCEPTIONS TO THE COUNTY'S CONTRACT

As noted in Section 1, Instructions to Bidders, Item 31, if an Bidder takes exception to any term or condition set forth in the Sample Contract, see Section 8 of this ITB, and any of its exhibits, appendices or attachments, said exceptions must be clearly identified in the response to this ITB. Exceptions or modifications to any of the terms and conditions must be submitted as a separate document accompanying the Bidder's response clearly marked as "Exceptions."

The County shall be the sole determiner of the acceptability of any exception(s).

However, no Renewal Term of this Agreement shall be authorized, nor shall any Renewal Term of this Agreement commence unless and until each Renewal Term has first been approved in writing by the County Board of Commissioners for the calendar year of such Renewal Term. In connection with any appeal proceeding under this clause, Contractor shall be afforded an opportunity to be heard and to offer evidence in support of an appeal. Pending any final decision of a dispute hereunder, Contractor shall proceed diligently with performance of the Agreement and in accordance with the decision of the County's designated representative.

If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the government.

ARTICLE 15. WAIVER OF BREACH

Contractor shall perform the services under this Agreement as an independent contractor and nothing contained herein shall be construed to be inconsistent with such relationship or status. Nothing in this Agreement shall be interpreted or construed to constitute Contractor or any of its agents or employees to be the agent, employee or representative of County.

ARTICLE 17. RESPONSIBILITY OF CONTRACTOR

Contractor represents that it has, or will secure at its own expenses, all personnel appropriate to perform all work to be completed under this Agreement;

All the services required hereunder will be performed by Contractor or under the direct supervision of Contractor. All personnel engaged in the Project by Contractor shall be fully qualified and shall be authorized or permitted under applicable State and local law to perform such services.

None of the work or services covered by this Agreement shall be transferred, assigned, or subcontracted by Contractor without the prior written consent of the County.

ARTICLE 18. INDEMNIFICATION

18.1 Non-Professional Services Indemnification. Contractor hereby agrees to indemnify and hold harmless Fulton County, its Commissioners and their respective officers, members, employees, and agents (each, hereinafter referred to as an "Indemnified Person") from and against any and all claims, demands, liabilities, losses, costs or expenses, including attorneys' fees due to liability to a third party or parties, for any loss due to bodily injury (including death), personal injury, and property damage arising out of or resulting from the performance of this Agreement or any act or omission on the part of the Contractor, its agents, employees or others working at the direction of Contractor or on its behalf, or due to any breach of this Agreement by the Contractor or due to the application or violation of any pertinent Federal, State or local law, rule or regulation. This indemnification is binding upon to the successors and assigns of Contractor. This indemnification does not extend to the sole negligence of the Indemnified Persons nor beyond the scope of this Agreement and the work undertaken thereunder. This indemnification survives the termination of this Agreement and shall also survive the dissolution or to the extent allowed by law, the bankruptcy of Contractor.

Contractor obligation to indemnify and hold harmless, as set forth hereinabove, shall also include, but is not limited to, any matter arising out of any actual or alleged infringement of any patent, trademark, copyright, or service mark, or other actual or alleged unfair competition disparagement of product or service, or other tort or any type whatsoever, or any actual or alleged violation of trade regulations.

Contractor further agrees to indemnify and hold harmless Fulton County, its Commissioners, officers, employees, subcontractors, successors, assigns and agents from and against any and all claims or liability for compensation under the Worker's Compensation Act, Disability Benefits Act, or any other employee benefits act arising out of injuries sustained by any employees of Contractor. These indemnities shall not be limited by reason of the listing of any insurance coverage.

18.2 Notice of Claim. If an Indemnified Person receives written notice of any claim or circumstance which could give rise to indemnified losses, the receiving party shall promptly give written notice to Contractor and shall use best efforts to deliver such written notice within ten (10) Business Days. The notice must include a copy of such written notice of claim, or, if the Indemnified Person did not receive a written notice of claim, a description of the indemnification event in reasonable detail and the basis on which indemnification may be due. Such notice will not stop or prevent an Indemnified Person from later asserting a different basis for indemnification. If an Indemnified Person does not provide this notice within the ten (10) Business Day period, it does not waive any right to indemnification except to the extent that Contractor is prejudiced, suffers loss, or incurs additional expense solely because of the delay.

18.3 Defense. Contractor, at Contractor's own expense, shall defend each such action, suit, or proceeding or cause the same to be resisted and defended by counsel designated by the Indemnified Person and reasonably approved by Contractor (provided that in all instances the County Attorney of Fulton County Georgia shall be acceptable, and, for the avoidance of doubt, is the only counsel authorized to represent the County). If any such action, suit or proceedings should result in final judgment against the Indemnified Person, Contractor shall promptly satisfy and discharge such judgment or cause such judgment to be promptly satisfied and discharged. Within ten (10) Business Days after receiving written notice of the indemnification request, Contractor shall acknowledge in writing delivered to the Indemnified Person (with a copy to the County Attorney) that Contractor is defending the claim as required hereunder.

18.4 Separate Counsel.

18.4.1 Mandatory Separate Counsel. In the event that there is any potential conflict of interest that could reasonably arise in the representation of any Indemnified Person and Contractor in the defense of any action, suit or proceeding pursuant to Section 18.3 above or in the event that state or local law requires the use of specific counsel, (i) such Indemnified Person may elect in its sole and absolute discretion whether to waive such conflict of interest, and (ii) unless such Indemnified Person (and, as applicable, Contractor) elects to waive such conflict of interest, or in any event if required by state or local law, then the counsel designated by the Indemnified Person shall solely represent such Indemnified Person and, if applicable, Contractor shall retain its own separate counsel, each at Contractor's sole cost and expense.

18.4.2 Voluntary Separate Counsel. Notwithstanding Contractor's obligation to defend a claim, the Indemnified Person may retain separate counsel to participate in (but not control or impair) the defense and to participate in (but not control or impair) any settlement negotiations, provided that for so long as Contractor has complied with all of Contractor's obligations with respect to such claim, the cost of such separate counsel shall be at the sole cost and expense of such Indemnified Person (provided that if Contractor has not complied with all of Contractor's obligations with respect to such claim, Contractor shall be obligated to pay the cost and expense of such separate counsel). Contractor may settle the claim without the consent or agreement of the Indemnified Person, unless the settlement (i) would result in injunctive relief or other equitable remedies or otherwise require the Indemnified Person to comply with restrictions or limitations that adversely affect or materially impair the reputation and standing of the Indemnified Person, (ii) would require the Indemnified Person to pay amounts that Contractor or its insurer does not fund in full, (iii) would not result in the Indemnified Person's full and complete release from all liability to the plaintiffs or claimants who are parties to or otherwise bound by the settlement, or (iv) directly involves the County (in which case the County of Fulton County, Georgia shall be the only counsel authorized to represent the County with respect to any such settlement).

18.5 Survival. The provisions of this Article will survive any expiration or earlier termination of this Agreement and any closing, settlement or other similar event which occurs under this Agreement.

ARTICLE 19. COVENANT AGAINST CONTINGENT FEES

Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, excepting bona fide employees maintained by Contractor for the purpose of securing business and that Contractor has not received any non-County fee related to this Agreement without the prior written consent of County. For breach or violation of this warranty, County shall have the right to annul this Agreement without liability or at its discretion to deduct from the Contract Price or consideration the full amount of such commission, percentage, brokerage or contingent fee.

ARTICLE 20. INSURANCE

Contractor agrees to obtain and maintain during the entire term of this Agreement, all of the insurance required as specified in the Agreement documents, Exhibit G, Insurance and Risk Management Forms, with the County as an additional insured and shall furnish the County a Certificate of Insurance showing the required coverage. The cancellation of any policy of insurance required by this Agreement shall meet the requirements of notice under the laws of the State of Georgia as presently set forth in the Georgia Code.

ARTICLE 21. **PROHIBITED INTEREST**

Section 21.01 **Conflict of interest:**

Contractor agrees that it presently has no interest and shall acquire no interest direct or indirect that would conflict in any manner or degree with the performance of its service hereunder. Contractor further agrees that, in the performance of the Agreement, no person having any such interest shall be employed.

Section 21.02 **Interest of Public Officials:**

No member, officer or employee of County during his tenure shall have any interest, direct or indirect, in this Agreement or the proceeds thereof.

ARTICLE 22. **SUBCONTRACTING**

Contractor shall not subcontract any part of the work covered by this Agreement or permit subcontracted work to be further subcontracted without prior written approval of County.

ARTICLE 23. **ASSIGNABILITY**

Contractor shall not assign or subcontract this Agreement or any portion thereof without the prior expressed written consent of County. Any attempted assignment or subcontracting by Contractor without the prior expressed written consent of County shall at County's sole option terminate this Agreement without any notice to Contractor of such termination. Contractor binds itself, its successors, assigns, and legal representatives of such other party in respect to all covenants, agreements and obligations contained herein.

ARTICLE 24. **ANTI-KICKBACK CLAUSE**

Salaries of engineers, surveyors, draftsmen, clerical and technicians performing work under this Agreement shall be paid unconditionally and not less often than once a month without deduction or rebate on any account except only such payroll deductions as are mandatory by law. Contractor hereby promises to comply with all applicable "Anti-Kickback" Laws and shall insert appropriate provisions in all subcontracts covering work under this Agreement.

ARTICLE 25. **AUDITS AND INSPECTORS**

At any time during normal business hours and as often as County may deem necessary, Contractor shall make available to County and/or representatives of the County for examination all of its records with respect to all matters covered by this Agreement.
