

Public Questions & Answers

Event Information

Number: RFQ-1001447
Title: Research Planter
Type: Request for Proposal (Public)
Issue Date: 5/1/2026
Question Deadline: 5/8/2026 04:00 PM (CT)
Response Deadline: 5/15/2026 04:00 PM (CT)
Notes: Iowa State University of Science and Technology (ISU) is soliciting information from qualified contractors to provide a new 4-row mounted GPS-controlled precision planter for use by the Plant Science Institute. All equipment and options must be factory-installed, if available. New units should be bid as close as possible to the specifications. A company can bid multiple planters for evaluation. These requirements are not intended to preclude competition.

Contractors should read all materials carefully and note the due date.
Contractors must submit all questions in the "Questions" tab related to this bid opportunity.

Published Questions

Question: Can we have the users come to our showroom to see a planter and talk through it prior to bid submission? We are located in Iowa.

Answer: ISU would not view the equipment until after bid completion and during the evaluation period, should they elect to view or request a demonstration of the unit.
