Section A - Solicitation/Contract Form

Instrument Name: Service Pump Maintenance

Product Service Code : J041

Section B - Supplies or Services & Prices or Costs

Additional Information/Notes

Offeror Pricing Instructions

Offeror shall enter pricing into the pricing matrix (see Attachment 1 - Pricing Matrix) in accordance with the below instructions.

CLINS X0001: Includes Required Maintenance Services: Insert proposed amount per quarter and total yearly price to be performed in accordance with the Performance Work Statement (PWS).

CLINS X0002: Includes Optional Maintenance Services: Insert proposed amount per year to be performed in accordance with the Performance Work Statement (PWS).

*** END OF NARRATIVE 1 ***

Item	Supplies/Service	Quantity	Unit	Unit Price	Amount
0001	Offerors shall complete and submit Attachment 1 - Pricing Matrix with their quote. All proposed pricing shall be entered in the Pricing Matrix. Failure to complete and submit the Pricing Matrix may render the quote ineligible for award. Product Service Code: J066 Pricing Arrangement: Firm Fixed Price	1	Job		

Section C - Description/Specifications/Statement of Work

Environmental Laboratory (EL)

Performance Work Statement

Cognitive Ecology and Eco-Hydraulics Research Flume Pump Maintenance

The Cognitive Ecology and Ecohydraulics Research Facility (CEERF) within the Water Quality and Contaminant Modeling Branch (EPW) of the Environmental Laboratory (EL) conducts research and development activities for the Department of Defense (DoD) to evaluate fish deterrence and attraction technologies, assess interactions between fish and bedforms, investigate the impacts of chronic contaminant exposure on fish movement, enhance computational models of water and animal movement, and develop new theories and algorithms for animal movement and coordination.

This research utilizes a fish flume located in Building 3284 that supports both small-scale and large-scale laboratory testing. The flume is operated using two primary drive motor/pump assemblies (Taco TS/TC Model 161415, 125 HP, NEMA, 1,150 RPM, 56 ft head) to create controlled flow environments that simulate real-world hydraulic conditions for studies involving live fish.

Year 1 Task: The contractor shall provide quarterly inspection and maintenance services for the two pumps located in Vicksburg, Mississippi that operate the fish flume at CEERF. The contractor shall provide both hard-copy and electronic reports documenting inspection findings, maintenance performed, and recommendations. The contractor shall travel to the Vicksburg site (3909 Halls Ferry Road Building 3284) to conduct all services.

Required maintenance services include:

- Inspection of motor and pump assemblies.
- Lubrication of motor and pump bearings.
- Verification of pump and motor alignment, including realignment when required.
- Assessment of vibration and abnormal noise conditions.
- Assessment of motor amperage draw.
- Cleaning and repacking of bearings or replacement of bearings as required.

Optional services will be identified during inspections and will require a formal proposal from the contractor and subsequent authorization for the Contracting Officer (or a designated representative) before work can proceed. This ensures clear control over scope of work and cost.

Optional services may include:

- Disassembly and replacement of pump and motor bearings due to normal wear and operational conditions.

- Removal and replacement of mechanical seals.
- Installation of shaft grounding rings to reduce electrical arcing and prevent damage to pump or motor bearings.
- Rewinding of electrical motors as required due to normal operational wear or failure.

All work shall be performed at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Vicksburg, Mississippi.

Period of performance: The period of performance is 12 months after the award date.

Deliverables: The contractor shall provide the following deliverables:

- a) A printed and electronic report documenting inspection findings and maintenance activities performed on both motor and pump assemblies, including lubrication, alignment verification and correction (if required), vibration/noise assessments, motor amperage measurements, and bearing maintenance activities.
- b) Cleaning, repacking, and/or replacement of motor and pump bearings as required.
- c) (Optional) Disassembly of pump and motor bearings and mechanical seals on pump assemblies.
- d) (Optional) Installation of shaft grounding rings on both pump and motor assemblies.
- e) (Optional) Rewinding of electric motors.

Optional Year 2 Task: The contractor shall provide quarterly inspection and maintenance services for the two pumps located in Vicksburg, Mississippi that operate the fish flume at CEERF. The contractor shall provide both hard-copy and electronic reports documenting inspection findings, maintenance performed, and recommendations. The contractor shall travel to the Vicksburg site (3909 Halls Ferry Road Building 3284) to conduct all services.

Required maintenance services include:

- Inspection of motor and pump assemblies.
- Lubrication of motor and pump bearings.
- Verification of pump and motor alignment, including realignment when required.
- Assessment of vibration and abnormal noise conditions.
- Assessment of motor amperage draw.
- Cleaning and repacking of bearings or replacement of bearings as required.

Optional services will be identified during inspections and will require a formal proposal from the contractor and subsequent authorization for the Contracting Officer (or a designated representative) before work can proceed. This ensures clear control over scope of work and cost.

Optional services may include:

- Disassembly and replacement of pump and motor bearings due to normal wear and operational conditions.
- Removal and replacement of mechanical seals.
- Installation of shaft grounding rings to reduce electrical arcing and prevent damage to pump or motor bearings.
- Rewinding of electrical motors as required due to normal operational wear or failure.

All work shall be performed at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Vicksburg, Mississippi.

Period of performance: The period of performance is 12 months after the award.

Deliverables: The contractor shall provide the following deliverables:

- a) A printed and electronic report documenting inspection findings and maintenance activities performed on both motor and pump assemblies, including lubrication, alignment verification and correction (if required), vibration/noise assessments, motor amperage measurements, and bearing maintenance activities.
- b) Cleaning, repacking, and/or replacement of motor and pump bearings as required.
- c) (Optional) Disassembly of pump and motor bearings and mechanical seals on pump assemblies.
- d) (Optional) Installation of shaft grounding rings on both pump and motor assemblies.
- e) (Optional) Rewinding of electric motors.

Optional Year 3 Task: The contractor shall provide quarterly inspection and maintenance services for the two pumps located in Vicksburg, Mississippi that operate the fish flume at CEERF. The contractor shall provide both hard-copy and electronic reports documenting inspection findings, maintenance performed, and recommendations. The contractor shall travel to the Vicksburg site (3909 Halls Ferry Road Building 3284) to conduct all services.

Required maintenance services include:

- Inspection of motor and pump assemblies.
- Lubrication of motor and pump bearings.
- Verification of pump and motor alignment, including realignment when required.
- Assessment of vibration and abnormal noise conditions.
- Assessment of motor amperage draw.
- Cleaning and repacking of bearings or replacement of bearings as required.

Optional services will be identified during inspections and will require a formal proposal from the contractor and subsequent authorization for the Contracting Officer (or a designated representative) before work can proceed. This ensures clear control over scope of work and cost.

Optional services may include:

- Disassembly and replacement of pump and motor bearings due to normal wear and operational conditions.
- Removal and replacement of mechanical seals.
- Installation of shaft grounding rings to reduce electrical arcing and prevent damage to pump or motor bearings.
- Rewinding of electrical motors as required due to normal operational wear or failure.

All work shall be performed at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Vicksburg, Mississippi.

Period of performance: The period of performance is 12 months after the award date.

Deliverables: The contractor shall provide the following deliverables:

- a) A printed and electronic report documenting inspection findings and maintenance activities performed on both motor and pump assemblies, including lubrication, alignment verification and correction (if required), vibration/noise assessments, motor amperage measurements, and bearing maintenance activities.
- b) Cleaning, repacking, and/or replacement of motor and pump bearings as required.
- c) (Optional) Disassembly of pump and motor bearings and mechanical seals on pump assemblies.
- d) (Optional) Installation of shaft grounding rings on both pump and motor assemblies.
- e) (Optional) Rewinding of electric motors.

Optional Year 4 Task: The contractor shall provide quarterly inspection and maintenance services for the two pumps located in Vicksburg, Mississippi that operate the fish flume at CEERF. The contractor shall provide both hard-copy and electronic reports documenting inspection findings, maintenance performed, and recommendations. The contractor shall travel to the Vicksburg site (3909 Halls Ferry Road Building 3284) to conduct all services.

Required maintenance services include:

- Inspection of motor and pump assemblies.
- Lubrication of motor and pump bearings.
- Verification of pump and motor alignment, including realignment when required.

- Assessment of vibration and abnormal noise conditions.
- Assessment of motor amperage draw.
- Cleaning and repacking of bearings or replacement of bearings as required.

Optional services will be identified during inspections and will require a formal proposal from the contractor and subsequent authorization for the Contracting Officer (or a designated representative) before work can proceed. This ensures clear control over scope of work and cost.

Optional services may include:

- Disassembly and replacement of pump and motor bearings due to normal wear and operational conditions.
- Removal and replacement of mechanical seals.
- Installation of shaft grounding rings to reduce electrical arcing and prevent damage to pump or motor bearings.
- Rewinding of electrical motors as required due to normal operational wear or failure.

All work shall be performed at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Vicksburg, Mississippi.

Period of performance: The period of performance is 12 months after the award.

Deliverables: The contractor shall provide the following deliverables:

- a) A printed and electronic report documenting inspection findings and maintenance activities performed on both motor and pump assemblies, including lubrication, alignment verification and correction (if required), vibration/noise assessments, motor amperage measurements, and bearing maintenance activities.
- b) Cleaning, repacking, and/or replacement of motor and pump bearings as required.
- c) (Optional) Disassembly of pump and motor bearings and mechanical seals on pump assemblies.
- d) (Optional) Installation of shaft grounding rings on both pump and motor assemblies.
- e) (Optional) Rewinding of electric motors.

Optional Year 5 Task: The contractor shall provide quarterly inspection and maintenance services for the two pumps located in Vicksburg, Mississippi that operate the fish flume at CEERF. The contractor shall provide both hard-copy and electronic reports documenting inspection findings, maintenance performed, and recommendations. The contractor shall travel to the Vicksburg site (3909 Halls Ferry Road Building 3284) to conduct all services.

Required maintenance services include:

- Inspection of motor and pump assemblies.
- Lubrication of motor and pump bearings.
- Verification of pump and motor alignment, including realignment when required.
- Assessment of vibration and abnormal noise conditions.
- Assessment of motor amperage draw.
- Cleaning and repacking of bearings or replacement of bearings as required.

Optional services will be identified during inspections and will require a formal proposal from the contractor and subsequent authorization for the Contracting Officer (or a designated representative) before work can proceed. This ensures clear control over scope of work and cost.

Optional services may include:

- Disassembly and replacement of pump and motor bearings due to normal wear and operational conditions.
- Removal and replacement of mechanical seals.
- Installation of shaft grounding rings to reduce electrical arcing and prevent damage to pump or motor bearings.
- Rewinding of electrical motors as required due to normal operational wear or failure.

All work shall be performed at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Vicksburg, Mississippi.

Period of performance: The period of performance is 12 months after the award.

Deliverables: The contractor shall provide the following deliverables:

- a) A printed and electronic report documenting inspection findings and maintenance activities performed on both motor and pump assemblies, including lubrication, alignment verification and correction (if required), vibration/noise assessments, motor amperage measurements, and bearing maintenance activities.
- b) Cleaning, repacking, and/or replacement of motor and pump bearings as required.
- c) (Optional) Disassembly of pump and motor bearings and mechanical seals on pump assemblies.
- d) (Optional) Installation of shaft grounding rings on both pump and motor assemblies.
- e) (Optional) Rewinding of electric motors.

General Information:

The Contractor shall inform the COR of issues or potential issues that might affect the performance within 3 business days of identifying those issues. Verbal reports shall be followed up by written reports within 5 business days.

Recognized Holidays: The following provides information on recognized holidays for the purpose of the PWS. If submittal of any documentation (e.g. deliverables, submittals, etc.) deadlines fall on a holiday, the closest workday prior to the holiday will apply as the deadline for submittal.

U.S. Holidays: Work may be performed on U.S. federally recognized holidays occurring during the normal workweek unless otherwise directed by the Contracting Officer. When a U.S. holiday occurs on a Saturday or a Sunday, the holiday is observed on the preceding Friday or following Monday, respectively.

New Year's Day January 1st

M. L. King Memorial Day 3rd Monday in Jan

Presidents' Day 3rd Monday in February

Memorial Day last Monday in May

Juneteenth June 19th

Independence Day July 4th

Labor Day 1st Monday in September

Columbus Day 2nd Monday in October

Veteran's Day November 11th

Thanksgiving Day 4th Thursday in November

Christmas Day December 25th

Place of Performance: The work performed under this contract shall take place at the Cognitive Ecology and Ecohydraulics Research Facility (CEERF), Engineer Research and Development Center (ERDC), Building 3284, Vicksburg, Mississippi.

Performance Requirements Summary (PRS): Performance standards define desired services. The Government performs surveillance to determine if the contractor exceeds, meets, or does not meet these standards. Table 1 provides a listing of performance standards.

Performance Objective 1: Pump Maintenance and Reporting

- Standard: The contractor shall perform all required quarterly maintenance activities and deliver a corresponding inspection and maintenance report to the COR within 10 business days of the inspection.

- Performance Threshold (AQL):

- (1) Timeliness: 100% of required quarterly maintenance activities shall be completed within the scheduled maintenance period; and

- (2) Completion: 100% of required maintenance activities identified in the PWS shall be completed and documented in the corresponding inspection and maintenance report.

The report shall be submitted to the COR within 10 business days of the inspection. Any failure to meet either the required completion schedule or reporting timeframe constitutes performance deficiency.

- Method of Surveillance: COR review of quarterly maintenance reports and periodic inspection of equipment.

Performance Objective 2: Bearing Maintenance

- Standard: The contractor shall clean and repack bearings on the pump and motor as required to ensure smooth operation and prevent premature wear, documenting the service in the maintenance report.

- Performance Threshold (AQL):

- (1) Timeliness: 100% of required bearing cleaning and repacking activities shall be completed within the timeframe specified in the PWS or applicable maintenance schedule; and

- (2) Completion: 100% of required bearing cleaning and repacking activities shall be performed in accordance with applicable manufacturer recommendations, PWS requirements, and established maintenance procedures, and shall be documented in the corresponding maintenance report.

- Method of Surveillance: COR review of maintenance reports, operational logs, and periodic inspection of equipment to verify timely completion, proper maintenance, and equipment condition.

Performance Objective 3: (Optional) Pump Bearing and Seal Replacement

- Standard: Upon authorization, the contractor shall replace bearings and/or mechanical seals in accordance with manufacturer specifications. The repaired unit must pass a post-maintenance operational test to confirm the issue is resolved.

- Performance Threshold (AQL):

(1) Timeliness: 100% of authorized component replacements shall be completed within the timeframe specified in the PWS or as authorized by the Government; and

(2) Completion: 100% of authorized component replacements shall be completed in accordance with applicable PWS requirements and manufacturer specifications, and the repaired unit shall successfully pass the required post-maintenance operational test.

All replacement activities and test results shall be documented in the contractor's service report.

- Method of Surveillance: COR review of the contractor's replacement reports, post-maintenance operational test results, and subsequent operational logs.

Performance Objective 4: (Optional) Install Grounding Rings

- Standard: Upon authorization, the contractor shall install shaft grounding rings on designated pump and motor assemblies in accordance with the grounding ring manufacturer's installation guidelines.

- Performance Threshold (AQL):

1) Timeliness: 100% of authorized shaft grounding ring installations shall be completed within the timeframe specified in the PWS or as authorized by the Government; and

(2) Completion: 100% of authorized shaft grounding ring installations shall be completed in accordance with the grounding ring manufacturer's installation guidelines and applicable PWS requirements, with each installation verified by physical inspection and documented in the contractor's installation report.

- Method of Surveillance: COR physical inspection of completed installations and review of the contractor's installation report.

Performance Objective 5: (Optional) Rewind Motors

- Standard: Upon authorization, the contractor shall rewind electric motors to meet original manufacturer specifications for performance, insulation class, and power draw.

- Performance Threshold (AQL):

(1) Timeliness: 100% of authorized motor rewinds shall be completed within the timeframe specified in the PWS or as authorized by the Government; and

(2) Completion: 100% of authorized motor rewinds shall be completed in accordance with original manufacturer specifications and applicable PWS requirements. Following completion, each rewind motor shall successfully pass the required post-rewind operational test, including verification that amperage draw under the specified operational load is within 5% of the applicable manufacturer-specified value.

Test results shall be documented in the contractor's service report.

- Method of Surveillance: COR review of the contractor's post-rewind performance test data, including amperage draw measurements, inspection of applicable service documentation, and operational monitoring of the motor.

Security Requirements:

General security requirements and guidance: The security requirements described below apply to all contract personnel (including employees of the prime Contractor ("Contractor") and all subcontractor employees) supporting the performance requirements of this contract. The Contractor is responsible for compliance with these security requirements. Questions regarding security matters shall be addressed to the designated Government representative (e.g., Contracting Officer Representative (COR), Requiring Activity (RA) representative, or Contracting Officer (if a COR or other RA representative is not appointed)). Contract personnel are critical to the overall security and safety of US Army Corps of Engineers (USACE) installations, facilities and activities, and security awareness training contributes to those efforts. The Department of Defense (DoD) and Army security training requirements specified below, if applicable, are performance requirements; all applicable contract personnel shall complete initial training within 30 days of contract award or the date new contract personnel begin performance on the contract. Within five business days from the completion of training, the Contractor shall provide written documentation (e.g., email or memorandum) to the Government representative. The documentation shall include the names of contract personnel trained and which training they completed; the Contractor shall maintain training records as part of their contract files and be prepared to provide copies of training certificates to the Government representative. Contractor personnel and vehicles are subject to search when entering federal installations. Additionally, all contract personnel shall comply with Force Protection Condition (FPCON) measures, Random Antiterrorism Measures (commonly referred to as "RAMs"), and Health Protection Condition (HPCON) measures. The Contractor is responsible for meeting performance requirements during elevated FPCON and/or HPCON levels in accordance with applicable RA plans and procedures --this includes identifying mission essential and non-mission essential personnel. In addition to the changes otherwise authorized by the changes clause of this contract, should the FPCON or HPCON levels at any individual facility or installation change, the Government may implement security changes that affect contract personnel. The Contractor shall ensure all contract personnel are aware of their security responsibilities, including any site-specific requirements identified in local policies or procedures.

Antiterrorism (AT) Level I training: All contract personnel requiring routine access to Army installations, facilities, and controlled access areas, or requiring network access shall complete initial and annual refresher AT Level I awareness training. Online AT Level I awareness training is available at <https://jko.jten.mil/> (website subject to change).

Physical security and access control requirements: All contract personnel requiring physical access to a federal installation or facility shall comply with the access control procedures of that location. Contract personnel requiring unescorted access to meet contract performance requirements on a DoD installation in the US shall be vetted by the installation/facility Provost Marshal/Directorate of Emergency Services/Security Office using the National Crime Information Center-Interstate Identification Index (commonly referred to as "NCIC-III") and Terrorist Screening Database (commonly referred to as "TSDB"). Contract personnel shall comply with all personal identity verification requirements specified in installation/facility policies and procedures. Contract personnel who do not meet requirements for unescorted access to USACE facilities shall coordinate escorted access with the Government representative, as needed. Contract personnel who receive keys, access cards, or lock combinations that provide access to government-owned property shall comply with key and lock control procedures of the RA.

Contract personnel requiring a common access card (CAC): Contract personnel will be issued a common access card (CAC) only if duties involve one of the following: (1) both physical access to a DoD facility and access to DoD information systems or networks; (2) remote access to a DoD information system or network using DoD-approved remote access procedures; or (3) physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. Before CAC issuance, contract personnel must have at a minimum, a favorably adjudicated Tier 1 investigation or an equivalent or higher investigation in accordance with applicable Army regulations and Homeland Security Presidential Directive-12 (HSPD-12). At the discretion of the RA, an initial CAC may be issued based on a favorable review of a fingerprint check and a successfully scheduled Tier 1 investigation with the National Background Investigations Bureau. The RA provides contract personnel with additional information and forms to initiate the CAC issuance process, and/or to initiate background investigations, when required. Contract personnel shall complete these processes within established timelines to avoid delays.

Suspicious Activity Reporting training (e.g. iWATCH, CorpsWatch, or See Something, Say Something): All contract personnel shall receive initial and annual refresher training from the RA representative on the local suspicious activity reporting program. This locally developed training provides contract personnel with general information on suspicious behavior, and guidance on reporting suspicious activity to the project manager, security representative or law enforcement entity.

Contract personnel requiring access to Government information systems: All contract personnel with access to a government information system (including USACE business systems and CAC-enabled websites) shall comply with applicable DoD and Army regulations, and shall use the organization's UserID-Password Administration and Security System (U-PASS) at commencement of services to request network user accounts. Contract personnel shall complete

DoD Information Assurance Awareness training prior to accessing information systems, and annually thereafter.

Training requirements for the protection of sensitive information: All contract personnel with access to critical information (as identified in the RA's OPSEC Program) shall complete initial and annual refresher OPSEC Level I Awareness training, which is available at the following websites: <https://www.iad.gov/ioss/>, or <http://www.cdse.edu/catalog/operations-security.html> (websites subject to change). All contract personnel with access to Controlled Unclassified Information (CUI) shall complete initial and annual refresher CUI training in accordance with applicable Army policy.

Contracts requiring handling or access to classified information: The prime Contractor shall have a Facility Clearance (FCL) at the appropriate level prior to performance on the contract; the RA will sponsor the prime contract company in obtaining the FCL. All cleared contract personnel shall comply with the FCL requirements, as well as applicable laws and regulations regarding contractor access to national security information. For classified contracts, the RA will generate the DD Form 254, which will be attached to the contract.

Threat Awareness Reporting Program: All contract personnel who maintain an active security clearance shall receive initial and annual refresher training on the Threat Awareness and Reporting Program (commonly referred to as "TARP"), provided by a Counterintelligence Agent. As determined by the servicing Counterintelligence Agent for the RA, contract personnel may complete web-based TARP training.

Pre-screen candidates using E-Verify Program: Contractors shall comply with the requirements set forth in FAR clause 52.222-54 Employment Eligibility Verification and FAR Subpart 22.18 in using the E-Verify Program at (<https://www.e-verify.gov/>) (website subject to change) to meet the contract employment eligibility requirements. Contractors are encouraged to cooperate with Federal and State agencies responsible for enforcing labor requirements to include eligibility for employment under United States immigration laws in accordance with FAR 22.102-1(i). An initial list of verified/eligible candidates shall be provided to the COR no later than three business days after the initial contract award. When contracts are with individuals, the individuals will be required to complete a Form I-9, Employment Eligibility Verification, and submit it to the Contracting Officer to become part of the official contract file.

Controlled Unclassified Information (CUI): In reference to the clauses at DFARS 252.204-7012 (DFARS CD 2026-O0025) and DFARS 252.240-7997 (DFARS CD 2026-O0025) there is no Controlled Unclassified Information (CUI) or Federal Contract Information (FCI) involved in performance of this contractual effort.

52.217-9	Option to Extend the Term of the Contract.	2000-03		

Option to Extend the Term of the Contract (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within five (5) days of contract expiration; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least ten (10) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed sixty (60) months.

(End of clause)

52.219-28	Postaward Small Business Program Rerepresentation. (Deviation 2026-O0038)	2026-02
-----------	--	---------

Postaward Small Business Program Rerepresentation (Feb 2026) (Deviation 2026-O0038)

(a) Definitions. As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support-table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(1) The Contractor represents that it [] is, [] is not a small business concern under ____ NAICS Code assigned to ____ contract number.

(2) [Complete only if the Contractor represented itself as a small business concern in paragraph (g)(1) of this clause.] The Contractor represents that it [] is, [] is not, a small disadvantaged business concern as defined in 13 CFR 124.1001.

(3) Women-owned small business (WOSB) joint venture eligible under the WOSB Program. The

Contractor represents that it ☐ is, ☐ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [____The Contractor shall enter the name and unique entity identifier of each party to the joint venture: ____.]

(4) Economically disadvantaged women-owned small business (EDWOSB) joint venture. The Contractor represents that it ☐ is, ☐ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [____The Contractor shall enter the name and unique entity identifier of each party to the joint venture: ____.]

(5) Service-disabled veteran-owned small business (SDVOSB) joint venture eligible under the SDVOSB Program. The Contractor represents that it ☐ is, ☐ is not an SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. [____The Contractor shall enter the name and unique entity identifier of each party to the joint venture: ____.]

(6) HUBZone joint venture eligible under the HUBZone Program.[Complete only if the offeror is a HUBZone small business concern.] The offeror represents, as part of its offer, that It ☐ is, ☐ is not a HUBZone joint venture that complies with the requirements of 13 CFR 126.616(a) through (c). [____The Contractor shall enter the name and unique entity identifier of each party to the joint venture: ____.] Each HUBZone small business concern participating in the HUBZone joint venture must be certified as a HUBZone concern. [____Contractor to sign and date and insert authorized signor's name and title.]

(End of clause)

52.222-42	Statement of Equivalent Rates for Federal Hires.	2014-05
-----------	---	---------

Statement of Equivalent Rates for Federal Hires (May 2014)

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR Part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

This Statement is for Information Only: It is not a Wage Determination

Employee Class	Monetary Wage-Fringe Benefits

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
(End of clause)	

52.223-9 Estimate of Percentage of 2008-05
Recovered Material Content for
EPA-Designated Items.

Estimate of Percentage of Recovered Material Content for EPA-Designated Items (May 2008)

(a) Definitions. As used in this clause-

Postconsumer material means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."

"Recovered material" means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall-

(1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of post-consumer material content; and

(2) Submit this estimate to _____[Contracting Officer complete in accordance with agency procedures].

52.229-11	Tax on Certain Foreign Procurements-Notice and Representation. (Deviation 2026-00038)	2026-02		

Tax on Certain Foreign Procurements-Notice and Representation (Feb 2026) (Deviation 2026-00038)

(a) Definitions. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror must select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2)

of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

(End of provision)

DFARS Provisions Incorporated by Full Text

Number	Title	Effective Date	Alternate Deviation	Variation Effective Date
252.204-7017	Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation.	2021-05		

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) Definitions. "Covered defense telecommunications equipment or services," "covered

mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [] will [] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

INSTRUCTIONS TO OFFERORS

1. Quote Submission

Quotes are due no later than 12:00 PM CDT on Thursday, September 24, 2026.

Quotes shall be submitted via email to:

Latosha.N.Rodgers@usace.army.mil

It is the Offeror's responsibility to ensure that its quote is complete, accurate, and submitted by the specified deadline. The Government will not make corrections to quotes. Quotes that are late, incomplete, or missing required information may not be considered for award.

A signed copy of this Request for Quote (RFQ) shall be included with the submission.

The quote must clearly demonstrate that the proposed services meet the requirements set forth in the Performance Work Statement (PWS). Quotes shall be clear and unambiguous.

2. Required Quote Content

The Offeror's quote shall include the following:

(a) Company Information

- Primary Point of Contact (POC) and alternate POC
- Phone numbers and email addresses
- Confirmation that the POC has authority to make decisions on behalf of the company

(b) Entity Identification

- Commercial and Government Entity (CAGE) Code and/or
- Unique Entity Identifier (UEI)

(c) Technical Approach

The Offeror shall provide a concise description of its approach to accomplishing all work outlined in the PWS. At a minimum, the technical quote shall address the Offeror's approach to:

- quarterly inspection and maintenance of the two pump/motor assemblies;
- inspection of motor and pump assemblies;
- lubrication of motor and pump bearings;
- verification of pump and motor alignment, including realignment when required;

- assessment of vibration and abnormal noise conditions;
- assessment of motor amperage draw;
- cleaning and repacking of bearings or replacement of bearings as required; and
- preparation and submission of required inspection, maintenance, and notification reports.

The technical quote shall also identify the personnel, labor categories, or technicians proposed to perform the work and briefly describe their relevant experience performing maintenance or repair on similar pump and motor assemblies.

The Offeror shall acknowledge that:

- all work shall be performed onsite at the Government facility in Vicksburg, Mississippi; and
- optional services identified during inspection may be performed only upon submission of a formal proposal and subsequent authorization by the Contracting Officer or designated representative.

(d) Pricing

The Offeror shall complete and submit Attachment 1, Pricing Matrix, for all CLINs identified in the matrix, including the base year and all option years.

The price quote shall:

- provide a firm-fixed-price, stated as a sum certain, for all required pricing entries in the pricing matrix;
- include all costs necessary to perform the contract requirements, including labor, supervision, materials, equipment, tools, transportation, travel, overhead, and profit, unless otherwise provided in the solicitation; and
- clearly identify any assumptions affecting price.

The Offeror is responsible for ensuring all pricing entries, extensions, and totals in the pricing matrix are complete and accurate.

3. System for Award Management (SAM) Registration and Representations & Certifications

To be eligible for award of a Department of Defense contract, Offerors must:

- Maintain an active registration in the System for Award Management (SAM);
- Have no active exclusions in SAM; and
- Have completed all required FAR and DFARS representations and certifications.

Representations and certifications should be completed prior to the RFQ closing date to avoid delays in award.

Offerors shall ensure that all required representations and certifications are either:

- Current and available in SAM (FAR and DFARS online representations and certifications), and/or
- Submitted with the quote.

Notice of Price Evaluation preference for HUBZone Small Business Concerns (Feb 2026)
(Deviation 2026-O0038)

(a) Evaluation preference.

(1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except-

(i) Offers from HUBZone small business concerns that have not waived the evaluation preference; and

(ii) Otherwise successful offers from small business concerns.

(b) Waiver of evaluation preference. A HUBZone small business concern may choose to waive the evaluation preference. If the concern waives the preference, the factor will be added to its offer for evaluation purposes.

[] Offeror chooses to waive the evaluation preference.

(c) Joint venture. A HUBZone joint venture agrees that, in the performance of the contract, at least 40 percent of the aggregate work performed by the joint venture shall be completed by the

HUBZone small business parties to the joint venture. Work performed by the HUBZone small business parties to the joint venture must be more than administrative functions.

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Factor 1 - Technical Acceptability

Factor 2 - Price

Technical Acceptability is more important than price only to the extent that a quotation must first be determined technically acceptable to be eligible for award. Among quotations determined technically acceptable, award will be made to the responsible vendor with the lowest total evaluated price.

Factor 1 - Technical Acceptability

The Government will evaluate the vendor's quotation to determine whether it demonstrates an adequate understanding of, and ability to perform, the requirements of the PWS.

Technical Acceptability will be evaluated on an **Acceptable/Unacceptable** basis.

To be rated **Acceptable**, the quotation shall demonstrate that the vendor can perform the required services, including:

1. Quarterly inspection and maintenance of the two pump/motor assemblies;
2. Inspection of motor and pump assemblies;
3. Lubrication of motor and pump bearings;
4. Verification of pump and motor alignment, including realignment when required;
5. Assessment of vibration and abnormal noise conditions;
6. Assessment of motor amperage draw;
7. Cleaning and repacking of bearings or replacement of bearings as required;
8. Submission of required reports and notifications within the timeframes established in the PWS; and
9. Understanding that optional services may be performed only upon Government authorization, when applicable.

In evaluating technical acceptability, the Government may consider:

- the vendor's described technical approach;
- the demonstrated relevance of proposed personnel experience; and
- the vendor's demonstrated ability to perform onsite at the place of performance specified in the PWS.

A quotation will be rated **Unacceptable** if it:

- fails to clearly demonstrate the ability to meet the material requirements of the PWS;
- takes exception to material solicitation requirements;
- omits material information necessary for the Government to evaluate the quotation; or
- reflects an approach that increases the risk of unsuccessful performance to an unacceptable level.

Factor 2 - Price

The Government will evaluate the total evaluated price for completeness, fairness, and reasonableness.

The Government will evaluate the Offeror's completed Attachment 1, Pricing Matrix. The total evaluated price will be calculated by adding the total price for the base year and the total price for all evaluated option years and any other CLINs identified in the solicitation for evaluation purposes.

The total evaluated price will include pricing for the Required Maintenance Services CLINs and Optional Services CLINs for the base year and all option years identified in Attachment 1, Pricing Matrix.

The Government may determine a quote unacceptable if pricing is incomplete or materially unbalanced.

Award will be made to the responsible Offeror with an **Acceptable** technical quote and the **lowest total evaluated price**.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
